

DANUSER

Augers, Accessories, and Replacement Parts

Adapters

Replacement auger adapters are available for field welding.

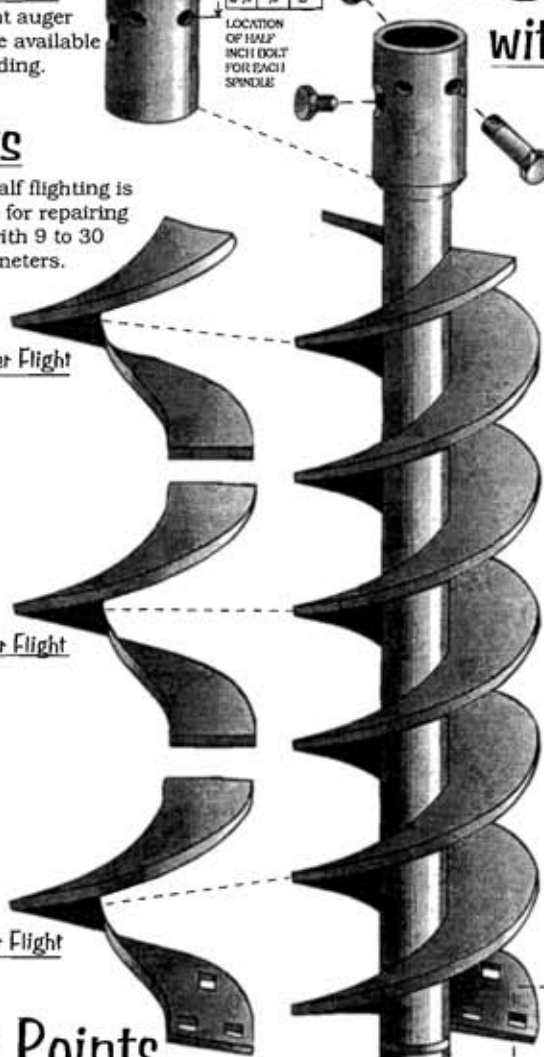

Augers for any brand digger* with 2" hex, 2" round, or 2 9/16" round spindle

Danuser has a complete line of augers available: auger diameters 4 to 30 inches and lengths of 40, 52, and 72 inches. Augers come with attaching hardware, standard point, and plain or serrated cutting edges. Augers with hole-digger head are also available.

* Verify hole size and location for attaching hardware.

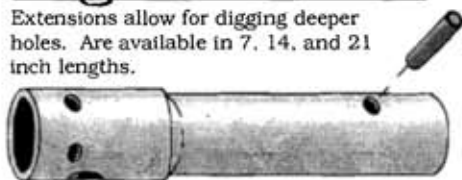

Flights

Full or half flighting is available for repairing augers with 9 to 30 inch diameters.

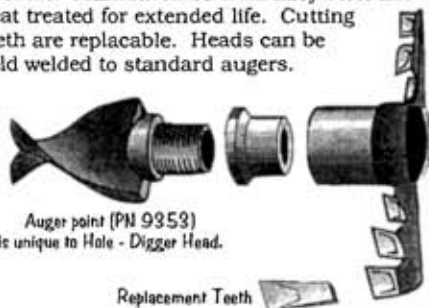

Auger Extensions

Extensions allow for digging deeper holes. Are available in 7, 14, and 21 inch lengths.

Hole - Digger Head

Hole - digger head is for use in hard ground or shale. Manufactured from alloy steel and heat treated for extended life. Cutting teeth are replaceable. Heads can be field welded to standard augers.

Auger Points
