Safety grate includes integrated bag busters

1/2 yard capacity (up to 3/4 yard with optional hopper extension)

Skid-steer quick attach mount on both sides for left or right discharge

All buckets come standard with two (2) 24" multi-link chutes

TRANSPORT, MIX, AND DISPENSE CONCRETE, WILDLIFE FEED, AGRICULTURAL GRAINS, GRAVEL, ASPHALT, AND MORE!

With a 1/2 yard base capacity (13.5 cubic ft.), and a 3/4 yard extended capacity (20 cubic ft.), the MAC Bucket replaces the manual labor of moving and mixing materials and is perfect for tight conditions where larger equipment is not ideal. This mixing and conveying (MAC) bucket features a skid-steer quick attach mount on both sides of the bucket, which allows for discharge from both the left and right sides. It is designed with no discharge gate and with the ability to self-load from loose piles, making the MAC Bucket a true one-person operation. Each MAC Bucket comes standard with two (2) 24" multi-linked chute and two (2) hoses with flush-faced couplers (ISO 16028).
